

1 Section Title

1.1 Subsection title

Crossreference. **USE PACKAGE cleveref** to avoid typos.

Use `\cref{sec:section-title}` to refer to Sect. 1.

Sect. 1.1, use `\Cref{sec:subsection-title}` when the reference is at the beginning of a sentence.

Use starred variants (e.g. `\cref*{sec:section-title}`) to avoid creating hyperlinks. For example, Sect. 1.

Code. Use `\cd{code}` to use the inconsolata font as: code.

Diamond. Use `\diam` to add a diamond symbol at the end of a line: (used for examples sections) ◇

Colored/Framed box. Example:
