A Brief Guide to the `todonotes` package

Jacopo Massa

September 22, 2026

`todo` command

Use the `\todo{<text>}` command to insert a note in the margin. The note will be numbered and will appear in the list of todos at the end of the document.

```
This paragraph needs a reference.\todo{Add a reference.}
```

Output: This paragraph needs a reference.

Add a reference.

Inline notes

Use the `\todo[inline]{<text>}` command to insert a note in the text itself, rather than in the margin.

```
\todo[inline]{Check the experimental setup before submission.}
```

Output:

Check the experimental setup before submission.

You can also specify the author and color of the note:

```
\todo[inline,author=Jacopo,color=green!20]{Update the results.}
```

Output:

Jacopo: Update the results.

List of todos

To generate a list of all todos in the document, use the `\listoftodos[<Custom Title>]` command at the desired location.It can also be added to the Table of Contents using `\todototoc` in the preamble. Example below:

My Todos

Add a reference. 1
Check the experimental setup before submission. 1
Update the results. 1
